

SENDAN NEW PATIENT FORMS

Thank you for choosing Sendan Center! Our policies and procedures are all in service of our mission: excellence in child/adolescent mental and behavioral healthcare.

The forms that follow contain important information; please read carefully and initial/sign as indicated. There may be other documents for you to sign at your first appointment.

INFORMATION ALL PATIENTS NEED TO KNOW

Medical Records

Our medical charts, as in many doctor's offices, are electronic. All information you share with us becomes part of the medical record.

Confidentiality

We place an extremely high value on the confidentiality of our relationship with you.

We need your written permission to release information about you or your care at Sendan Center. If a client is 13 years old or over, we need that client to give written permission.

The **exceptions** to this rule are:

1. To the physician who referred you here – state law allows us to pass on information summarizing our evaluation, diagnosis and recommended treatment. You may ask us NOT to do that if you wish.
2. We have concern that you are at immediate risk to harm yourself.
3. We have concern that you are at risk to hurt someone else.
4. We have concern that you are not able to take care of your basic needs (such as food and shelter).
5. If we suspect child abuse or neglect, we are REQUIRED to report this by state law.

If there are other individuals or agencies involved in your or your child's care, we may talk with you about signing a release of information so that all involved parties can communicate efficiently in the interest of providing the best care for you or your child.

HIPAA Notice of Privacy Practices

Please review this information carefully and save a copy for your records. The HIPAA Notice is available for download on our website and copies are available at the clinic.

Consultations

Sendan Center clinicians regularly participate in external peer professional consultation groups, and also receive consultation with experts in the field. This is a critical means of ensuring the quality of care we provide. Cases are discussed anonymously.

Sendan Center clinicians also discuss cases internally among relevant and appropriate clinical staff. Cross-disciplinary collaboration is an important part of our work, in the service of excellent care for your child.

TEENS AND PRIVACY RIGHTS

Teens have privacy rights for some health issues. To provide the best care and comply with state laws, we may ask to talk with your teen in private. The laws are about:

- Giving consent for care or treatment
- Privacy issues about confidential services for drug and alcohol abuse and mental health

As teens grow, so does their need for privacy and independence. We are committed to giving your teen the best care. We are able to do this by talking with them in private. We know there are times when teens will not tell us important information about their health if we do not give them a place to talk in private and keep their information private from their parents.

Involving parents in care

We are family-centered and strive to involve the parent or guardian in the care and well-being of their child. We encourage teens to talk with their parents or guardians about serious issues and will offer to help start the conversation if they would like that help.

Mental health

A teen who is 13 years old or older may give consent for outpatient care and treatment for mental health concerns. Consent from a parent or guardian is not required.

If a teen needs psychiatric treatment and refuses to consent for care, a parent, legal guardian or other adult caregiver may consent for outpatient care under Family-Initiated Treatment law.

Substance abuse

A teen who is 13 years old or older may give consent for substance use treatment without consent from a parent or guardian. Parents or guardians also can consent for a teen to receive substance use treatment under Family-Initiated Treatment law.

A teen's identity and all information related to the diagnosis and treatment of substance use is private. A teen must give written permission for information about substance use treatment to be released.

BILLING AND INSURANCE

Billing and Payment Procedures depend on the service you are receiving. We know this information is complicated. We are always here to answer your questions.

In General:

Most insurances have an amount that is due at the time that services are delivered. These co-payments are due at the time of service. We accept cash, personal checks, Visa and Mastercard in payment.

If there is still a balance after we bill your insurance, we will bill you for that amount. These amounts are set by your insurance company and may be due to a deductible or a combination of copayment (the amount you pay at the time of service) and/or a coinsurance amount.

You are responsible for understanding how your insurance works. We will try to be helpful with understanding those issues. You are also responsible for any amounts that your insurance will not pay for. If you change insurance providers without notifying us, we may not be able to retroactively bill the correct insurance – in that case you are responsible for paying for the treatment you received.

We charge a \$5.00 fee on accounts with a patient-responsible balance owing where a payment was not made during the month.

We may charge a fee for documents requested by outside parties. These include, but are not limited to, preauthorization for medications (requested by your insurance company), disability forms (requested by the State), medication forms (requested by schools or camps). During treatment, you may ask for letters to be written, conferences with schools or outside agencies, or telephone consultations. Insurances typically do not pay for these types of services. If we charge, you will be personally responsible for these charges. We do not charge for authorized exchange of information between Sendan Center and other providers, such as your physician or another therapist.

Let us know immediately if you expect to have trouble paying your bill.

If you have an insurance that we do not bill, you may wish to check to see if you have “out of network” coverage. If you do, you may be able to bill your insurance company yourself and receive partial reimbursement. We can provide you with the information necessary to do that billing on your own. You will need to pay in full for services at the time of service, and then be given a statement you can submit to your insurance company for reimbursement.

We reserve the right to submit unpaid bills to a collection agency. In some cases, this may result in legal action, which the collection agency will initiate.

Mental health billing can, unfortunately, be extremely complicated, and there are multiple points in the billing process where someone (patient, insurance company, provider) can make an error. In our experience, billing and payment conflicts often arise when families disregard the policies and procedures described in this document. However, sometimes billing and payment conflicts occur despite everyone's best efforts. Our staff are dedicated to approaching billing and payment issues from a problem-solving perspective, with patience and goodwill.

Sendan Psychiatry and Psychotherapy

Payment is always due at the time of service. If your minor or dependent child is unaccompanied to their appointment, arrangements should be made for payment of any charges due on the day your child is seen. For example, we can accept credit card payments over the phone if you do not wish to send payment with your child.

Sendan Center is only a preferred provider with Regence (and HMA, which uses Regence providers), Premera (and Lifewise, which is a part of Premera), and Kaiser Permanente. If you provide us with complete and accurate information, we will bill those insurance companies for you. When you have insurance changes, please be sure to let us know about them. We do not bill any other third-party payers or insurance companies. If you have any other insurances than those listed above, you are responsible for the bill at the time of service.

Sendan Autism Services*

Sendan Autism Services is contracted with the insurance companies listed above. Some of our providers also accept Molina and HCA Fee-For-Service for autism diagnosis evaluations and treatment (such as speech-language-communication therapy specific to an autism diagnosis).

Sendan ABA Services*

Sendan ABA Services is contracted with the insurance companies listed above, as well as Molina, DDA and HCA Fee-For-Service. Each payor has a different process they will want you to go through before they will reimburse for ABA services.

Sendan Learning Services*

Some Sendan Learning Services are billable to insurance, and others are not:

Language disorder assessment and therapy, tutoring and executive function coaching: Private pay only. We do not bill insurances, Molina, or HCA for these services. You will receive a rate sheet prior to treatment and will be billed monthly for services received. Payment is due upon receipt of the bill.

Speech-Language Therapy: Regence, Premera, Kaiser, and Molina

* We recognize how incredibly confusing it is to understand what services are and are not covered by which insurances. Insurances have a lot of rules that providers and patients must follow. Please contact us with your questions, and we will work together with you to figure out if we can bill your insurance for the services your child needs.

APPOINTMENT POLICIES

A Psychiatry and Psychotherapy evaluation at Sendan Center typically requires three sessions to complete and provide feedback regarding diagnosis, recommendations and prognosis. In the first session, parents may be seen alone, and in the second, the child may be seen alone. The third visit is usually a feedback session. The evaluation process for your child may be slightly longer or shorter, depending on the determined immediate needs of the child and family.

Initial Evaluations for Sendan Autism Services, Sendan ABA Services and Sendan Learning Services will vary depending on the needs of the child and family.

We charge you for missed appointments and visits cancelled with less than **48 hours (2 business days)** notice. Insurance will not reimburse for missed appointments; you are responsible for those charges at the full cost of the appointment.

Appointments

Please check in with the receptionist when you arrive. While we try to keep on schedule to avoid keeping you waiting, occasionally we can get behind because of unexpected clinical situations. The receptionist can keep you informed of any delays when you arrive.

If your child is young enough to need supervision while parents are meeting with a clinician at any time, you will need to arrange to have someone watch them.

If receiving mental health services via telehealth, please log into HIPAA-compliant website Doxy.me for telehealth. You can find links to all psychiatry and psychotherapy clinicians on our website, by clicking on “COVID-19 FAQs” and scrolling to the bottom. While we try to keep on schedule to avoid keeping you waiting, occasionally we can get behind because of unexpected clinical situations or technology issues. If you are waiting longer than 10 minutes in the Doxy.me waiting room, please call Sendan Center at (360) 305-3275 to check on status updates.

Please make sure that if you are engaging in telehealth, you have headphones and a private location to support confidentiality and privacy laws.

Medication refills

If you need a prescription refill, first contact your pharmacy. They will contact our office asking for a refill. We require 48 hours (2 business days) advance notice for such a request.

If there are no refill authorizations on your current prescription, your child will need to be seen by their prescriber to renew the prescription. Please be sure you have scheduled an appointment well in advance of the prescription running out.

Stimulants and other medications may require specially mediated or handwritten prescriptions. If you do not have a prescription to fill, your child may need an appointment. Please be sure to schedule an appointment before you run out. Federal Law requires that patients on stimulant medications (e.g. methylphenidate, Ritalin, Concerta, Adderall, mixed amphetamine salts, Vyvanse, dexamethylphenidate, Focalin) be seen every three months. Lack of timely appointments or notification of refill requests may lead to your child not being prescribed their medications. Your child’s safety and wellbeing are our chief priority.

Telephone calls

We try our best to return all front office calls within one business day and urgent calls sooner. Front office days of business are Monday through Friday. You can help us by leaving your phone number and good times to reach you when you leave your message.

Speaking with or consulting with individual clinicians by telephone is subject to clinical availability. If you need to speak with your clinician, it is best to schedule a phone appointment with the front office.

We do bill for telephone calls and letters written on your behalf, including those required to ensure prescribed medications are covered by your insurance. However, insurances do not typically pay for phone calls and writing letters. These charges are your responsibility.

Coverage

At times we will be unavailable for urgent/emergent needs and will arrange coverage for these periods with other professionals, as appropriate.

Emergencies

If you have an emergency, please call 911 or go to the emergency room nearest you. We are not able to safely handle emergencies during office hours, as we are providing patient care.

For urgent concerns (which are not emergent), you may leave a message and we will attempt to get back to you within one business day.

For non-emergent but clinically urgent issues after regular business hours, please call the main number and follow the after-hours paging instructions.

YOUR BILLING INFORMATION

Please check one:

- Regence (including HMA)
- Premera (including Lifewise)
- Kaiser Permanente
- Molina: for some services only; please see details under Billing and Insurance Policies above
- HCA Fee-For-Service: for some services only; please see details under Billing and Insurance Policies above
- DDA (Developmental Disabilities Administration): for some services only; please see details under Billing and Insurance Policies above

(Other insurances are not billed)

Insurance ID# _____

Group Number _____

Name of Insured _____

Name of Guarantor _____

Guarantor's Date of Birth: _____

Guarantor's address: _____ City: _____

State: _____ Zip code: _____

Guarantor's best contact phone number: _____

Have you checked on your benefits with your insurance company? Yes No

(We strongly suggest that you do check this to be sure that you understand if you have any deductibles, what your copayment or coinsure amounts might be, whether the services you will be receiving are covered, and how many visits you may have available to you.)

Kaiser insurance requires preauthorization for all services. For Psychiatry and Psychotherapy services, please call the member services number on the back of your insurance card. For other services, please ask your child's primary care physician (PCP) to submit a referral. If you or your child's PCP need any information (such as provider names or billing codes) in order to submit that referral, we can provide that information.

Without that preauthorization, we cannot bill Kaiser for services.

Other insurances sometimes require referral and/or preauthorization for some services. In these cases, we will let you know before your first visit what additional steps are required by your insurance company.

NAME OF PATIENT

PATIENT'S DATE OF BIRTH

(PLEASE KEEP IN MIND THAT MANY OF THESE ARE EITHER STANDARD OR REQUIRED QUESTIONS; NOT ALL WILL APPLY TO YOUR CHILD)

SENDAN CENTER CHILD AND FAMILY INTAKE AND CONSENT FORM

Seeking (please circle): Diagnosis Treatment Both Not sure

Do you have any family members in the area that you can rely on for help? Yes No

Do you have any friends in the area that you can rely on for help? Yes No

Do you have any other adults in the area that you can rely on for help? Yes No

Please describe activities that your family likes to do together:

Are there currently any unusual stresses your family is experiencing? Yes No

Is there any problematic family conflict currently in the household in which the child resides? Yes No

Does the patient have a troubled sibling? Yes No

If you answered yes to any of the last three questions, please provide details and effect on child:

Please provide a brief statement about parents'/ caregivers' own relationship:

Has there been any domestic violence in the household in which the child resides? Yes No

If yes, please provide details (Police called? Legal consequences? Effect on child?):

Are there any guns in your home or any home your child visits? _____

If so, are the guns locked? Yes No If yes, how? _____

Does parent/caregiver have a history of alcohol or drug use, which disrupts his/her capacity to parent? Yes No

If yes, provide details _____

Has parent/caregiver ever been involved in the criminal justice system? Yes No If yes, provide details: _____

ADOPTION HISTORY IF APPLICABLE

At what age was the child adopted? _____ Date in home: _____

Date of legal adoption: _____

Type of adoption: Within family _____ U.S. _____ International _____

Country: _____

What has the child been told about the adoption? _____

Does the biological parent see the child? If so, how often? _____

SEPARATION HISTORY IF APPLICABLE

Has the child ever been separated from his/her parents or primary caregivers for any significant period of time? Yes No

Provide information about the child's age and circumstances of the separation: _____

How did the separation affect the child?: _____

Is the child currently at risk for out-of-home placement? Yes No If yes, why: _____

REASONS FOR EVALUATION

Who referred you to Sendan Center? _____

What are your concerns about your child? Please provide as much detail as possible, including the nature of any symptoms or behaviors, onset, duration, frequency and severity: _____

Did a specific event lead to this request for evaluation/treatment? Yes No. If so, please describe: _____

What do you hope will come out of this evaluation/treatment?

PRENATAL HISTORY

This information should be provided as it relates to the biologic parents of the child, if known.

Was the pregnancy planned? Yes No

Any difficulty becoming pregnant? If so, please explain: _____

Was the mother exposed to any of the following:

Type	List Specific Substance	Amount	Month of Pregnancy
Drugs	<input type="checkbox"/> None		
Alcohol	<input type="checkbox"/> None		
Tobacco/Nicotine	<input type="checkbox"/> None		
Medications	<input type="checkbox"/> None		
X-Rays	<input type="checkbox"/> None		

Did the mother experience any health problems during pregnancy? Yes No If yes, please describe:

Length of pregnancy: _____ Age of mother: _____ Weight gain: _____

Describe labor and/or delivery with this child: without problem difficult (please explain below) natural (Vaginal)
 C-section Forceps used

Please explain: _____

Did the baby cry immediately after birth? Yes No Apgar scores (if known): _____

Birth statistics: Weight: _____ Length: _____ Head circumference: _____

How soon after the birth did the mother see the baby? _____ Hold the baby? _____

Hospital where the child was born: _____

Duration of mother's hospital stay: _____ Baby's hospital stay: _____

Were there any problems noted by anyone while the baby was still in the hospital? (For example, prolonged jaundice, need for incubator/oxygen, infections, feeding problems, convulsions): _____

Were there any difficulties during the baby's first month of life? (Examples: excessive crying, health problems): _____

Was infant bottle or breast fed? Number of months breast fed: _____

Were there any difficulties with feeding? (Examples: recurrent vomiting, "colic", poor suck, low weight gain) _____

Did parents have significant or unusual trouble adjusting to the new baby? _____

Did biologic mother suffer with postpartum blues or depression? If so, please describe. _____

DEVELOPMENTAL HISTORY

Do you / did you have any concerns about your child's development? Yes No

Was development perceived as average? below average? above average?

Please identify your child's developmental progress in the following areas:

Areas of Development	Compare your child's development to other children his/her age (please put an X in the box below):			Please comment on areas of strength and needs in your child's development: Please note any delay/ deterioration/ loss of skills
	Average	Slower	Faster	
Gross Motor Skills (running, throwing ball, bicycling)				
Fine Motor Skills (coloring, drawing, writing, scissors use)				
Speech & Language Skills (pronunciation, vocabulary)				
Social Skills (sharing, cooperating, taking turns)				
Self-Control Skills (impulse control, delaying gratification)				
Self-Concept (child's opinion of self, abilities, worth)				
Cognitive Skills (memory, comprehension, knowledge)				
Self-Care Skills (feeding, toileting, dressing)				

Has your child had any formal developmental testing? Yes No If yes, please provide details: _____

Has your child received any early intervention services? Yes No If yes, please provide details: _____

SPEECH AND LANGUAGE DEVELOPMENT

During the first two years, did your child demonstrate the following:

babbling jargon (talking own language) phrases single words Short sentences

(IF APPLICABLE): What is the primary method your child uses for letting you know what he/she wants? (please check any that apply)

looking at objects crying single words pointing at objects vocalizing

2-3 word combinations gestures physical manipulation sentences

HEALTH HISTORY

Who is your child's primary doctor? _____ Phone #: _____

Address: _____

Who is your child's primary dentist? _____ Phone #: _____

When was your child last seen by a medical professional? _____

For what reason? _____

Date and results of last physical examination: _____

Child's current height: _____ weight: _____ BMI: _____

Is your child's general physical health good? Yes No

Serious and / or chronic illness now (or in past)? _____

Any sleep problems? _____

Typical range of times when your child falls asleep on school nights: _____ non-school nights: _____

Typical range of times when your child gets up on school days: _____ non-school days: _____

Does your child snore, gag or ever appear to stop breathing during sleep? _____

Does your child have any of these in the bedroom: computer television monitor for video games

Does your child have access to: video games or cell phone in the bedroom at night? _____

How does your child wind down at the end of the day? _____

Are immunizations up to date? Yes No

Does your child have any of the following impairments/conditions (documented)? none reported unknown developmental disability visual disability deaf hard of hearing medical/physical disability neurological disability fetal alcohol syndrome or effects

If yes, please provide details _____

Has child had any history of seizures/convulsions (including with exercise, startle, or fright) or head injury/concussion? yes no

If yes, please provide details _____

Has your child fainted, blacked out, or experienced episodes with loss of consciousness? yes no

If yes, please provide details _____

History of medical hospitalizations and/or surgeries: None Unknown

Doctor or Hospital	Dates/duration:	Conditions treated:	Complications:	Discharge status:

SOCIAL HISTORY

Check the phrases that describe your child:

- Overly quiet
 Overly active
 Excessive tantrums
 Destructive
 Very shy
 Perfectionistic
 Friendly/outgoing
 Imaginative
 Plays well with other children
 Difficulty separating from parent

Does your child have behavior problems at home? If so, please specify:

Does your child have behavior problems at school? If so, please specify:

Does your child have behavior problems in the community (e.g. grocery store, daycare, public places, etc.)? If so, please specify:

Does your child have any past or current substance use/abuse? cigarettes e-cigarettes drugs alcohol marijuana

denies use none If yes, please describe substances used, amount, and effect on child: _____

Please describe forms of discipline which have been used in the home and their effectiveness:

Please make a brief statement about the relationship between your child and

Mother/maternal caregiver: _____

Father/paternal caregiver: _____

Siblings: _____

The closest relationship is between your child and _____

The most troubled relationship is between your child and _____

How has your child's problem affected each family member?

Mother: _____

Father: _____

Sibling(s): _____

Describe sleeping arrangements in the family:

Does your child participate in community activities (e.g. sports, Boys and Girls Club, church)? Yes No

If yes, please describe: _____

How many hours of physical activity / exercise does your child have on a weekday: _____ Weekend day: _____

Does your child have hobbies, interests, etc.? _____

What games / activities does your child prefer? _____

Does your child have a social media account (e.g. Twitter, Facebook)? _____

Do you have access to this? _____

Where are the televisions and computers in your home? _____

Do the computers have parental controls? _____

Does your child have any portable electronic devices that can access the internet? _____

How many hours does your child spend in front of any screen on a typical school day? _____

How many hours does your child spend in front of any screen on a non-typical school day? _____

Are chores routinely assigned to your child? Yes No If yes, which chores? _____

Does your child have as many friends as most other children his/her age? yes no

Does your child have friends come over and play/socialize at your house? yes no

Does your child play at the houses of his/her friends? yes no

Has your child had any friends stay overnight at your house, or has she/he stayed overnight at another friend's house? yes no

not age-appropriate (child too young)

Has your child been persistently harassed or abused by peers? yes no

Please list those qualities about your child that you consider to be strong positive points/areas of strength:

Please list those qualities about your child that you consider to be the most difficult or challenging.

Please tell us about your family's strong positive points / areas of strength:

EDUCATIONAL AND VOCATIONAL HISTORY

Is your child currently enrolled in school? yes no

Current school placement:

School Name: _____

Grade: _____

School District: _____

Phone #: _____

Teacher/Counselor/IEP Coordinator: _____

Any grades repeated: _____
